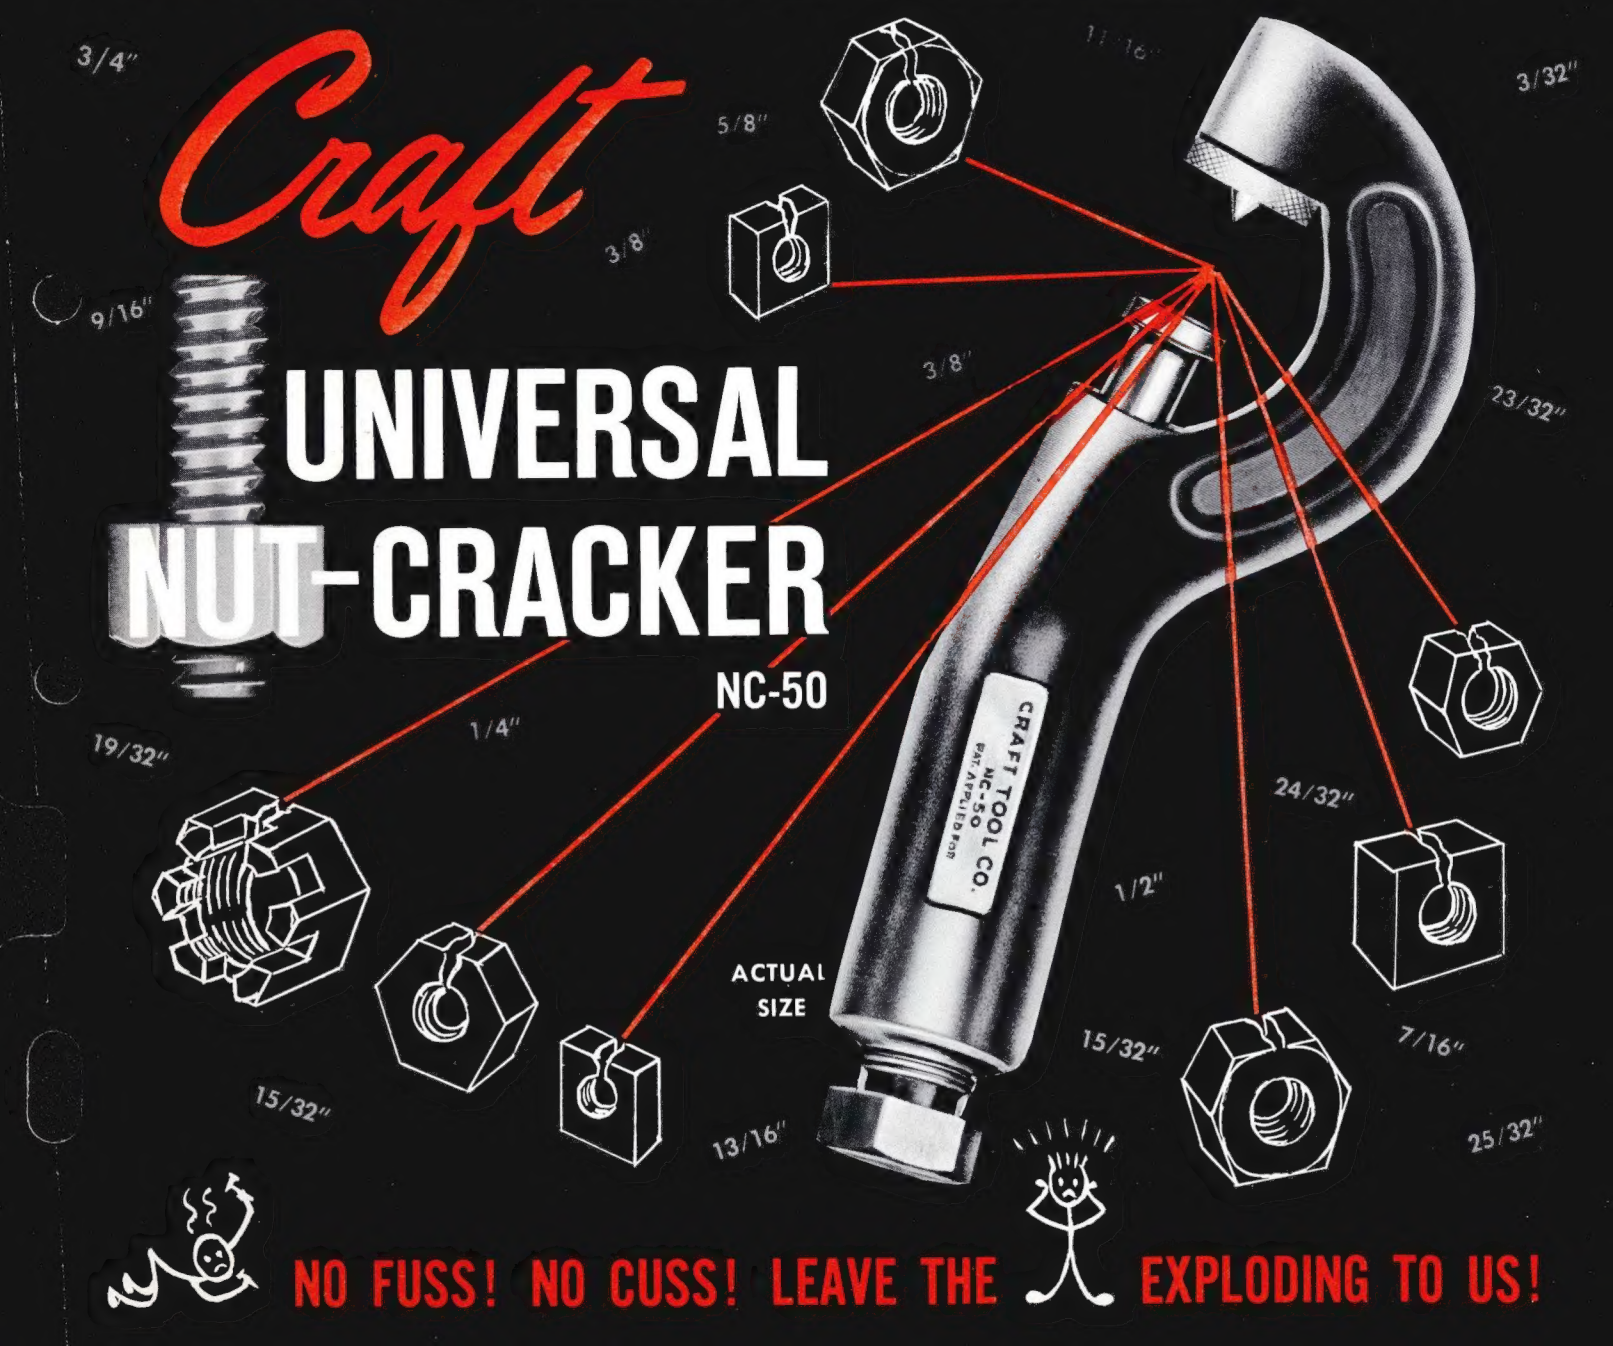
AT LAST! A UNIVERSAL NUT-CRACKING TOOL!

CRACKS ALMOST EVERY SIZE! FITS INTO THE TIGHTEST CORNERS!
WORKS IN SECONDS TO SAVE YOU TIME AND MONEY!.....

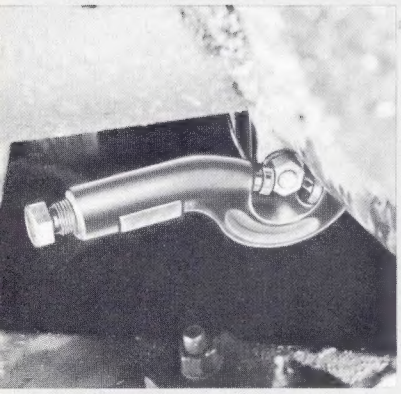


NO FUSS! NO CUSS! LEAVE THE EXPLODING TO US!

EVERYWHERE YOU WORK ON A CAR, REACHES AND EXPLODES TO BATTERY, SHOCKS TO SPRINGS,

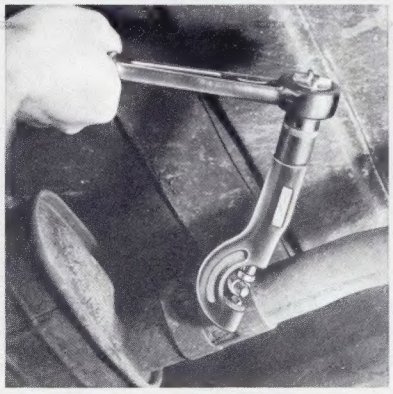
IT HANDLES EVERY SIZE NUT FROM 5/16" TO 13/16" WITHOUT DAMAGE TO THE BOLT!

(across the flats)



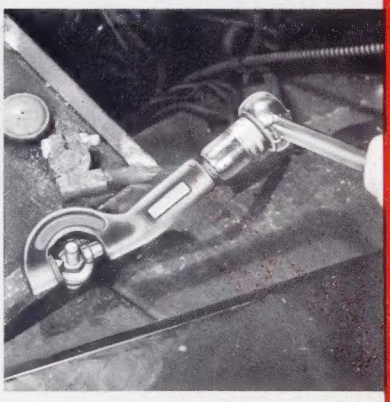
MANIFOLD NUTS

No need to be afraid of this job. The NC-50 explodes manifold nuts in seconds without breaking the manifold studs. Saves time, labor and money!



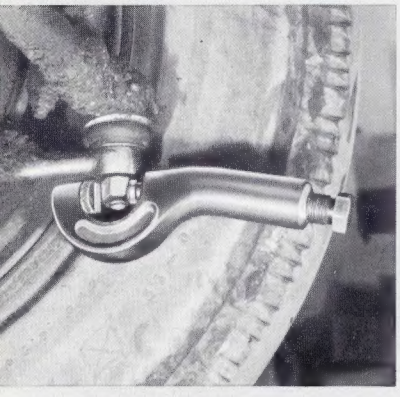
MUFFLER CLAMP NUTS

Easy as 1-2-3! The NC-50 removes rusted and frozen muffler clamp nuts without damaging the muffler or tail pipe clamps.



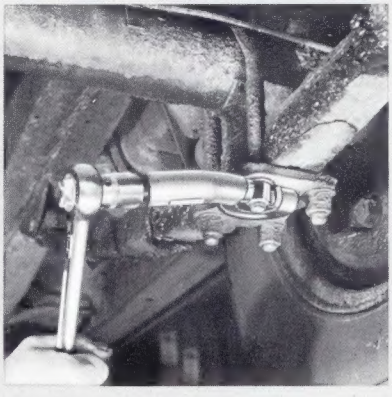
BATTERY HOLD-DOWN CLAMP NUTS

Saves your battery hold-down carriers. The NC-50 explodes the clamp nuts without damaging the carrier.



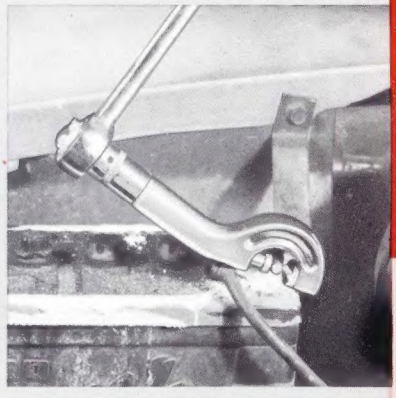
TIE-ROD END NUTS (AND BALL-JOINT SUSPENSION NUTS)

No more skinned knuckles and no more hit and miss with hammer and chisel. The NC-50 goes in and does the job fast and sure.



U-BOLT NUTS

Say goodbye to wasted time spent fighting corroded U-bolt nuts. A couple swings of the wrench, and "pow!" the job's done.



BATTERY CABLE NUTS

No matter how badly the battery terminal is corroded, or how little gripping room, your NC-50 explodes the nut without breaking the terminal.

BRILLIANTLY ENGINEERED TO GIVE YOU ENOUGH WRENCH ROOM IN THE TIGHTEST SITUATION

FAST POS
ACTION . . . I

1. Just set the chis
angle to the flat

2. Turn the forcing screw with your finger until the nut is gripped firmly.

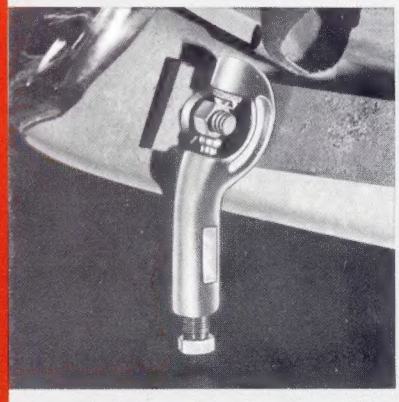
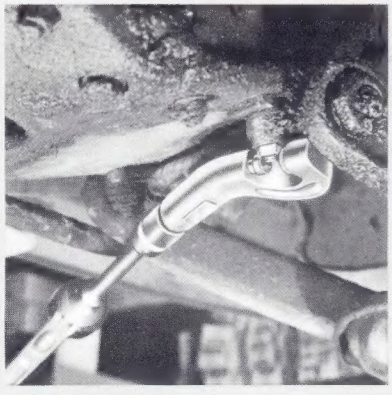
ALL
CARS!



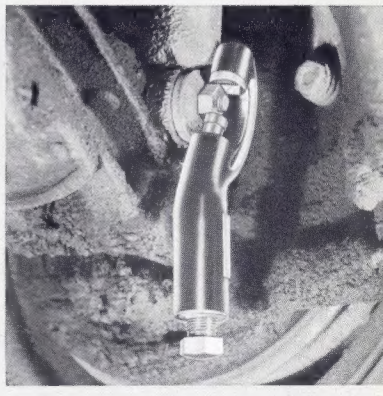
BUMPER BOLT NUTS

Good news for body-shop men! The NC-50 will not break bumperette bolts. Saves costly replacements.



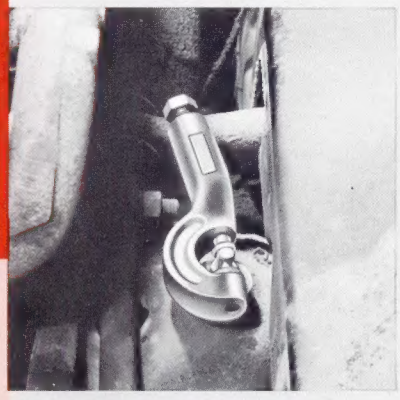
LOWER A-FRAME ASSEMBLY NUTS

You'll explode all 4 nuts on the lower control arm intershaft quicker than it takes you to remove 1 the old-fashioned way!



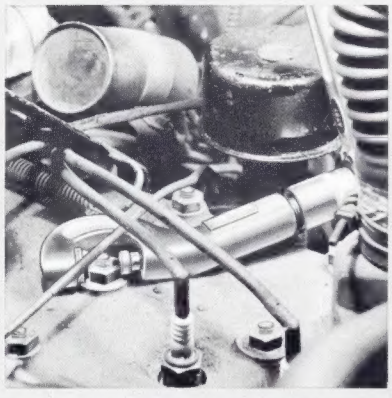
REAR SHOCK NUTS

Upper shock bolt-tightening becomes easy. Just explode the front nut with the NC-50, slip the shock off and in 2 swings of your ratchet, the upper bolt is snug again.



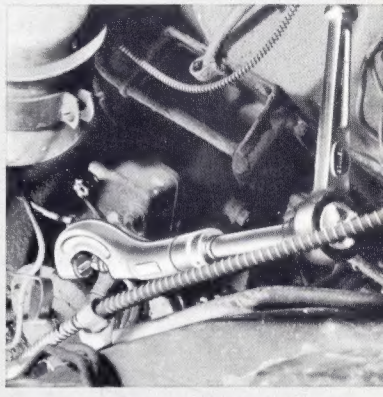
FRONT SHOCK NUTS

Forget about reaching to hold the shock while turning the nut. Just explode the front shock nut with the NC-50 and pull the shock out.



CYLINDER HEAD NUTS

You'll snap the nuts, not the studs, with the NC-50. It's cheaper to replace a nut than a stud.



UPPER CONTROL ARM INTERSHAFT NUTS

Even with very little swinging room, your NC-50 goes in, grips and cracks the nuts in seconds. Makes a fast 1-man operation out of a 2-man job!

HUNDREDS OF EVERYDAY APPLICATIONS, THE MORE YOU USE IT, THE MORE USES YOU'LL FIND FOR IT!

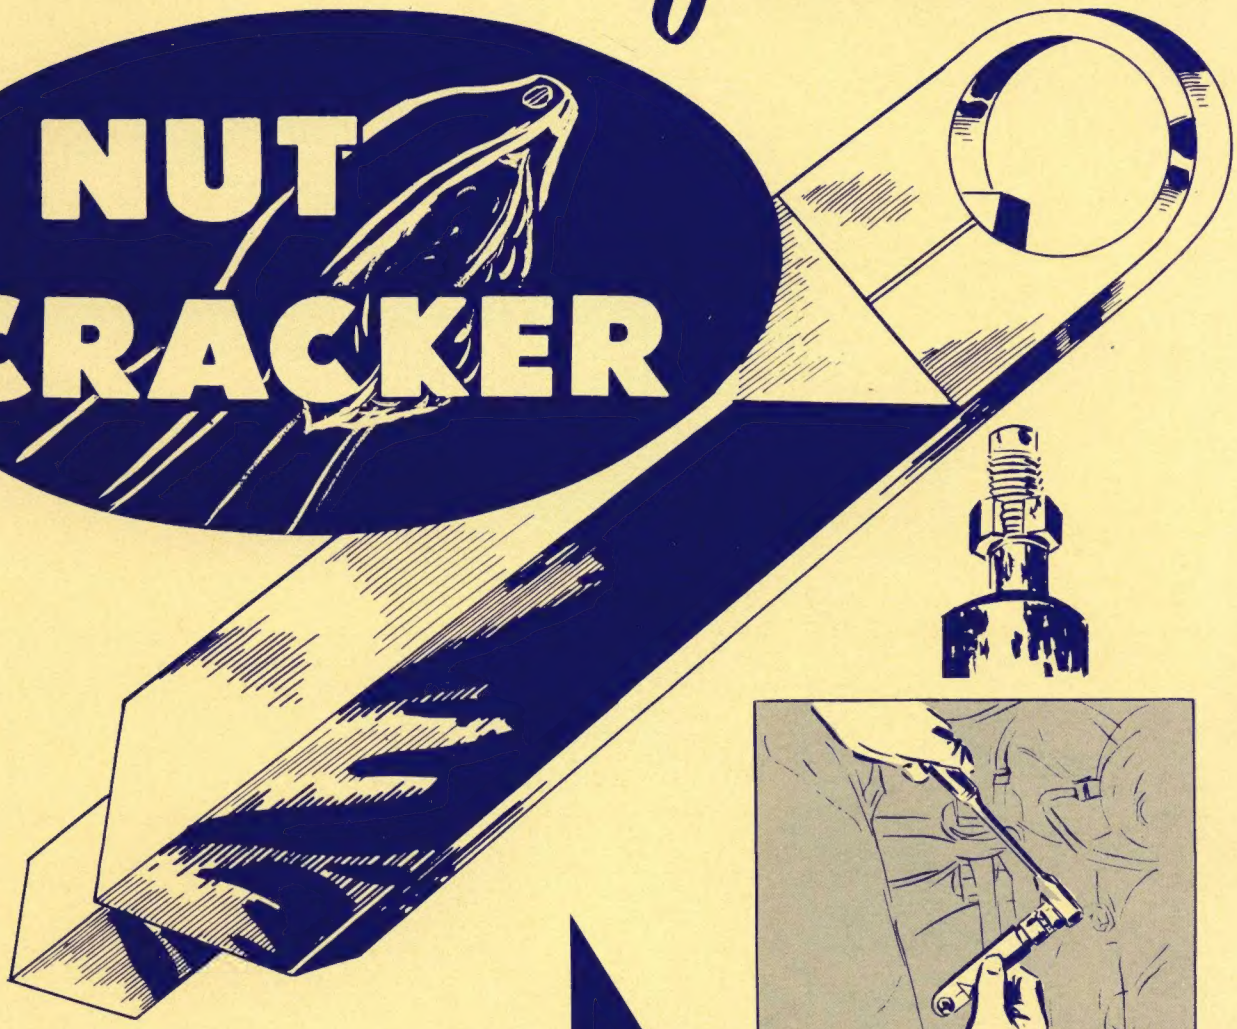
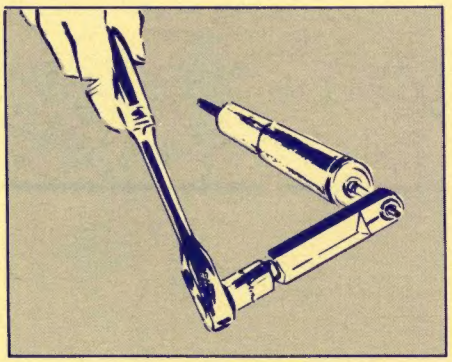
NEW Craftmaster

NUT CRACKER



Ratchet and socket turns driving head of "nut cracker" forcing the steel expansion chisel into the frozen nut.



A few quick swings of the ratchet and the nut explodes apart for easy removal. Works equally well under hood and for rear shock work too.

NEW FAST-ACTION TOOL SPLITS RUSTED STUD-END SHOCK ABSORBER NUTS IN TWO FOR INSTANT REMOVAL . . .
